This book is divided into three parts. The first part provides a foundation for understanding the biblical gospel. It explores the nature of God, the problem of sin, and the solution that God has provided through Jesus Christ. The second part examines some of the most common objections to the Christian faith. It addresses issues such as the problem of evil, the existence of other religions, and the historical reliability of the Bible. The third part provides practical guidance for Christians on how to share their faith with others. It offers advice on how to answer questions, how to deal with objections, and how to live a life that is consistent with the gospel.
