By James Bryce

The American Commonwealth is a classic work of political science by James Bryce. First published in 1888, it has been praised for its comprehensive and insightful analysis of the American political system. The book is divided into three volumes, with the second volume focusing on the state governments.

In this volume, Bryce examines the history, structure, and functions of state governments in the United States. He discusses the role of the governor, the legislature, and the judiciary. He also examines the relationship between state and federal governments.

Bryce's analysis is both detailed and insightful. He provides a wealth of information about the American political system, and he offers a number of

valuable insights into how it works. The American Commonwealth is a must-read for anyone interested in American government.

Table of Contents

- The Nature of the State
- The Historical Development of the State
- The Functions of the State
- The Structure of the State
- The Governor
- The Legislature
