Volume III of her Complete Works provides a comprehensive exploration of her economic and political thought, illuminating her groundbreaking analysis of capitalism, imperialism, and the quest for a more just and equitable world.

Unveiling the Hidden Truths of Capitalism

In this volume, Luxemburg's incisive critique of capitalism takes center stage. Her seminal work, "The Accumulation of Capital," exposes the inherent contradictions and exploitative nature of the capitalist system, demonstrating its relentless drive for profit at the expense of human well-being.

Through rigorous analysis and meticulous research, Luxemburg reveals how capitalism inevitably leads to the accumulation of wealth in the hands of a few, while the vast majority of society is left in poverty and oppression. She argues that the system's inherent tendency towards кризис and instability ultimately undermines its own foundations.

Imperialism: The Last Stage of Capitalism

Luxemburg's unwavering opposition to imperialism is another central theme explored in this volume. She recognized imperialism as the ultimate expression of capitalism's predatory nature, a brutal system of exploitation and domination that sought to control and plunder weaker nations.

In her seminal work, "The Junius Pamphlet," Luxemburg exposes the true nature of imperialist wars, arguing that they are waged not for national defense or the pursuit of justice, but for the economic and political interests of the ruling class. She calls for a united front of all oppressed peoples to fight against imperialism and its devastating consequences.

The Path to Socialist Revolution

Luxemburg's writings in this volume also provide a roadmap for achieving a truly just and democratic society. She believed that socialism offered the

only viable alternative to the oppressive forces of capitalism and imperialism.

However, she rejected the authoritarian models of socialism that prevailed at the time, advocating instead for a democratic and decentralized form of socialism based on the self-organization and empowerment of the working class. Luxemburg's vision of a socialist society emphasized the importance of individual freedom, workers' control over the means of production, and the elimination of all forms of oppression and exploitation.
